

live smarter

empowered by all the data about you

GET STARTED

LEARN MORE

1self empowers you to collect, connect and discuss all the data that describes your life to give you new smarts about **yourself**

Enable your smarter life

Easily correlate, visualise and have fun with your data

How often do you check your phone?
How does noise level affect your productivity?
How does your relationship affect your mood?

Your "big data" in 1 place

Connect apps, devices, sensors and services

Your phone, apps, devices, websites you visit and all the things you interact with in the world are collecting data about you. 1self gives you the power to unite syour data for your own benefit

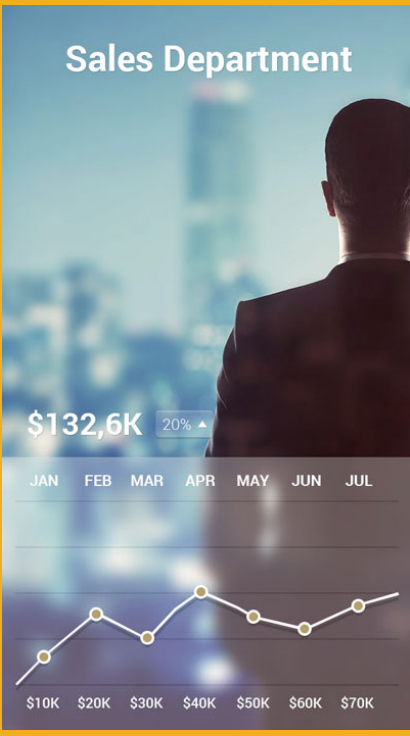

1self puts you in the middle of your world of personal data. A world of entertainment, personal stories you can share, a new level of self-awareness and insights that could help you become **happier, healthier, wealthier and wiser**

Understand yourself

How well do you really know yourself?

How many hours did you work last week? How much sleep did you get? What did you eat? What did you spend money on?

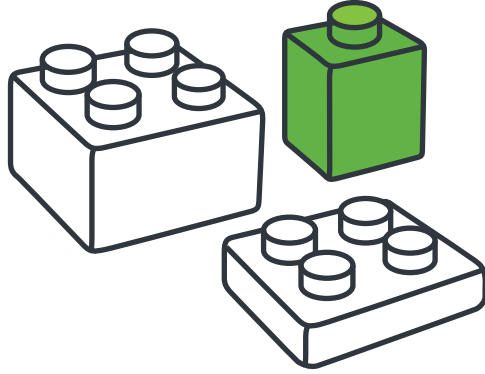

1self can give you the answers these questions and more. By collecting your data in one place you'll understand yourself and what really makes you tick. your data for your own benefit

Designed to be extensible

1self is fully extensible through our open API

LEARN MORE

1self will never exploit you for your data because we're

not for profit
